

YOU COULD SAVE YOUR TEEN DRIVER'S LIFE

When it comes to your teen driver's safety, your involvement is key. **Here's why:**

Teens who say their parents monitor their activities in a helpful supportive way are:

HALF

as likely to speed

70%

less likely to drink and drive

2X

more likely to wear seat belts

30%

less likely to talk on a cell phone while driving

Want the tools and strategies you need to keep your teen driver safe? Scan to learn more: ZeroFatalities.com/learner-permit

A person's greatest lifetime chance of being in a fatal crash occurs during the first 6 to 12 months after receiving a license.*

What causes these increased fatalities? Inexperience. Teens need at least 40 hours of parent-supervised practice to develop crucial driving skills, including scanning and hazard detection.

You have the power to cut your child's crash risk in half by being closely involved in the learning-to-drive process.*

Know Utah's Graduated Driver Licensing Laws

Since 1999 when the GDL program was instituted in Utah, the number of teens (ages 15-17) killed in motor vehicle crashes decreased approximately 70%. The GDL laws work and they save lives. Learn all the GDL laws at: ZeroFatalities.com/learner-permit

- Teens (ages 15-17) must have their learner permit for six months before applying for a driver license at age 16.
- Teens must complete at least 40 hours (10 of those at night) before they can receive their driver license.

Get Driving Tips, Videos and Resources

To become a safe and responsible driver, your teen needs to develop a range of critical driving skills in a variety of environments. You'll find short, evidence-based instructional videos at ZeroFatalities.com/learner-permit that will help your teen practice and gain diverse skills and experience behind the wheel.*

Drive Time Log For Parents

Tracking your teen's driving hours just got easier. You can quickly log and track their hours digitally from your phone using our newly updated tracker. To start, use the QR code to access the drive time log. Then, when your teen spends time behind the wheel, simply add that time to the tracker and watch it deduct from the total time. Once they've accrued their 40 hours, you can use the tools provided to download the tracking information for easy submission.

To access and begin using the tracker, follow these steps below:

1. Use the QR code to access the drive time log.
2. Create an account.
3. Remember your email and password.
